STORM SMART®

OUR PROMISE TO YOU

Storm Smart will consistently provide unmatched customer service while professionally manufacturing & installing state-of-the-art, hurricane-protection products.

THE SMART CHOICE FOR STORM PROTECTION

When it comes to comprehensive storm protection, there's no better partner than Storm Smart. Storm Smart is the largest hurricane-protection company in Florida and has the most reliable and intelligent products available. We offer a full line of technologically advanced systems for home and business. Whether you're building, replacing outdated energy-wasting windows and doors or needing to protect your home and family better from hurricane winds, Storm Smart will help you save every step of the way. Simply call us for a free estimate and expert consultation.

ON-TIME INSTALLATION

At Storm Smart, we manufacture our own products, so we are in control of the fabrication and distribution schedules. That means you can count on a timely and convenient installation. In addition to the best products and service, expect superior customer care both in the field and from our support staff in the office.

BRIAN RIST, PRESIDENT

DID YOU KNOW?

- Many insurance companies in Florida require hurricane protection to be eligible for homeowners insurance.
- Hurricane protection saves you money by significantly reducing insurance premiums and lowering utility bills.

OUR SERVICE DEPARTMENT

At Storm Smart we employ the area's finest service technicians in the field of storm protection. Annual maintenance checks by our service technicians assure our customers that at the time of need, our product will perform to your satisfaction. In addition, our technicians also service other companies' products to ensure they also perform accordingly.

STORM CATCHER® ROLL-DOWN SCREEN

Enjoy incredibly reliable hurricane protection with the convenience of an electronically controlled or manually operated Storm Catcher® Roll-Down Screen system. Protecting you, your family and your home even when you are not there, this highly innovative and advanced design is like having a bulletproof vest for your home. Additionally, the Storm Catcher Roll-Down Screen can cover large openings while the cutting-edge mesh structure filters incoming light, allowing you to see out.

ROLL-DOWN SCREEN FEATURES

- Florida Building Code approved (FBC #FL11291)
- Always in place, ready for use
- Withstands hurricane force winds and impact from flying debris
- Blocks up to 95% of wind and rain
- Can operate from inside or outside your home
- Easily deployed manually or electrically with optional remote control
- Provides privacy and keeps lanais clean of dust and debris
- Increases the resale value of your home

STORM CATCHER® SLIDE SCREEN

There is no need to board up your home or office, leaving you in the dark for days. The Storm Catcher® Slide Screen's lightweight, cutting-edge mesh structure allows you to know what's going on outside while you're safely inside. The extraordinarily strong and easy-to-install Storm Catcher Slide Screen will protect your home from damage caused by high winds and flying debris. This product uses the Storm Catcher Screen, using a lower profile track, with a simple deployment method that is an outstanding solution for windows.

SLIDE SCREEN FEATURES

- Florida Building Code approved (FBC #FL11291) and Miami-Dade approved (NOA #14-0207.01)
- Highly effective protection for windows and doors against violent storms and flying debris
- Avoids the "cave-like" feeling that metal shutters produce
- Lightweight, convenient and easy to deploy
- Affordable hurricane protection providing maximum defense

SMART VIEW WINDOWS & DOORS

With the addition of our exclusive Smart View impact-resistant windows and doors, you are getting the most efficient and aesthetically pleasing hurricane protection available for your home.

By simply closing and locking your impact-resistant windows and doors, your home and family are fully protected from hurricane-force winds, possible intruders, and even harmful UV rays that increase your energy bill and fade your furnishings.

OTHER BENEFITS INCLUDE:

- Florida Building Code approved
- Reduced energy bills from increased UV protection
- Security against intruders with multi-layered glass
- Greatly reduced outside noise
- Hurricane protection “at the ready”

ALUMINUM ROLL-DOWN SHUTTERS

This convenient product provides protection from hurricane force winds and airborne objects. It also adds privacy, security, thermal protection and noise reduction.

ALUMINUM ROLL-DOWN SHUTTER FEATURES

- Florida Building Code approved (FBC #FL5790)
- Motorized and/or crank-down
- Can be operated from inside your home
- Protection from hurricane winds and airborne objects
- Provides privacy and security year-round

ACCORDION SHUTTERS

This form of storm protection has the ability to cover large spans such as lanais and balconies. Accordion shutters also work very well for protecting windows and sliding glass doors, and are ideal for large openings on commercial structures.

ACCORDION SHUTTER FEATURES

- Florida Building Code approved (FBC #FL1850)
- Secured to your home on all four sides, providing maximum protection
- Opens & closes as easily as your sliding glass door
- Protects large spans, doors and lanais
- Store-front locking system
- Ideal for residential and commercial structures
- Protection from hurricane winds, airborne objects and intruders

WE MAKE SMART HOMES

At **Storm Smart**, we stay up-to-date on the latest technologies and advances, especially in home automation. We have partnered with leading providers of home automation and security solutions to develop systems that enhance convenience and performance.

Personalized home automation and control systems allow users to control virtually any device in a home or business, automatically. They provide smart, secure and simple home automation capabilities that blend professional installation with simplified system customization and expansion.

With a home automation app, you can connect to your Storm Smart automatic screens and shutters. Then, any time a storm threatens, just control your storm-protection systems remotely with the touch of a finger on your mobile phone or smart device! It's as easy as that!

STORM PANELS

Storm panels provide strong hurricane protection for home or business. Lexan® clear panels allow you to see outside during severe weather, and for business your customers can see when you are open.

STORM PANEL FEATURES

- Florida Building Code approved (metal: FBC #FL11968; clear: FBC #FL6417)
- Available in aluminum, steel and clear Lexan®
- Affordable protection from hurricane winds and airborne objects
- Will not warp; reuse indefinitely
- Fits bay windows, French doors and custom windows
- Protects most any size opening

SOLAR MOTORS

Using a solar motor on your Storm Catcher® Roll-Down Screen provides the energy-savings of solar and the convenience of opening and closing the screen during power outages. Minimally sized solar collectors, professionally installed in direct sunlight, absorb the sun's energy and transfer that power to your solar motor.

SOLAR MOTOR FEATURES

- Energy efficient
- Fully functional during electrical interruptions
- Virtually unnoticeable on roofline
- Maintenance-free

“Get peace of mind. Join our family of over 60,000 satisfied customers by relying on a company you can trust! *It's not just smart. It's genius!*”
