

*The Recognized Leader in Innovative,
Multipurpose Storm Protection*

OUR PROMISE TO YOU

At **Storm Smart**, we strive for complete customer satisfaction, while earning a referral at every touchpoint.

DID YOU KNOW?

- Many insurance companies in Florida require hurricane protection to be eligible for homeowners insurance
- Storm Catcher® Roll Down Screens are always in place, ready to use for property owners who want to manage the weather every day
- Lifestyle product ideal for lanais, external covered seating areas, restaurants and condominiums

BUILT FOR YOUR HOME WITH CUSTOMIZATIONS BASED ON YOUR NEEDS

COMPLETE OWNERSHIP FROM DESIGN TO MANUFACTURING, INSTALL, SERVICE, AND WARRANTY

THE SMART CHOICE FOR STORM PROTECTION

When it comes to comprehensive storm protection, there's no better partner than Storm Smart. Storm Smart is the largest and most reputable hurricane-protection company in Florida, providing the most reliable and intelligent products available on the market. We offer a full line of technologically advanced systems for home and business. Whether you're building, replacing outdated energy-wasting windows and doors or needing to better protect your home and family from hurricane winds, Storm Smart will help you save every step of the way. Simply call us for a free estimate and expert consultation.

WE WORK WITH YOUR SCHEDULE

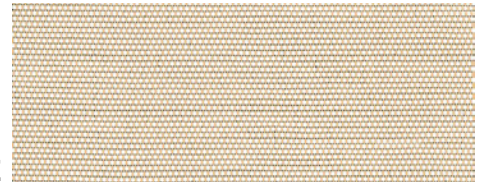

At Storm Smart, we manufacture our own Storm Catcher® screens, so we are in control of the fabrication and distribution schedules. That means you can count on a timely and convenient installation. In addition to the best products and service, expect superior customer care both in the field and from our support staff in the office.

STORM CATCHER® ROLL DOWN SCREEN

Enjoy incredibly reliable hurricane protection with the convenience of an electronically controlled or manually operated Storm Catcher® Roll Down Screen system. Protecting you, your family and your home even when you are not there, this highly innovative and advanced design provides year-round protection for your home. Additionally, the Storm Catcher Roll Down Screen can cover large openings while the cutting-edge fabric structure filters incoming light, allowing you to see out.

ROLL DOWN SCREEN FEATURES

- Certified for installation in the High Velocity Hurricane Zone of Miami-Dade
- Withstands hurricane force winds and impact from flying debris
- Can operate from inside or outside your home
- Easily deployed manually or electrically with optional remote control
- Provides privacy and reduces rain, dust and debris in lanais
- Made in Florida

STORM CATCHER® DEPLOYABLE

There is no need to board up your home or office, which leaves you in the dark for days. The Storm Catcher® Deployable Screen's lightweight, cutting-edge fabric structure allows you to know what's going on outside while you're safely inside. The extraordinarily strong and easy-to-install Storm Catcher Deployable Screen will protect your home from damage caused by high winds and flying debris. These products use the Storm Catcher® Screen with either a low-profile track and/or straps and buckles to tightly secure your home.

DEPLOYABLE SCREEN FEATURES

- Certified for installation in the High Velocity Hurricane Zone of Miami-Dade
- Highly effective protection for windows and doors against violent storms and flying debris
- Avoids the "cave-like" feeling that metal shutters produce
- Lightweight, convenient and easy to deploy
- Affordable hurricane protection providing maximum defense

IMPACT WINDOWS & DOORS

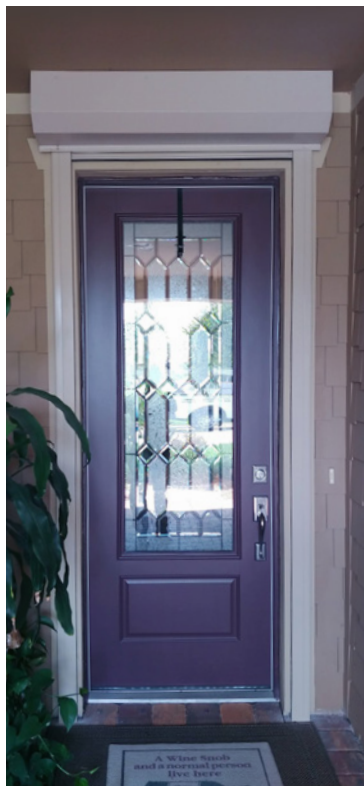

With our exclusive Smart View by Eastern Architectural Systems impact-resistant windows and doors, you are getting the most efficient and aesthetically pleasing hurricane protection available for your home.

By simply closing and locking your impact-resistant windows and doors, your home and family are fully protected from hurricane-force winds, possible intruders, and even harmful UV rays that increase your energy bill and fade your furnishings.

BENEFITS INCLUDE:

- Certified for installation in the High Velocity Hurricane Zone of Miami-Dade
- Reduced energy bills from increased UV protection
- Security against intruders with multi-layered glass
- Greatly reduced outside noise
- Hurricane protection “at the ready”

ALUMINUM ROLL DOWN SHUTTERS

This convenient product provides protection from hurricane force winds and airborne objects. It also adds privacy, security, thermal protection and noise reduction.

ALUMINUM ROLL DOWN SHUTTER FEATURES

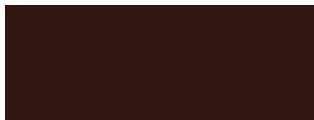

- Certified for installation in the High Velocity Hurricane Zone of Miami-Dade
- Motorized and/or crank-down
- Can be operated from inside your home
- Protection from hurricane winds and airborne objects
- Provides privacy and security year-round
- Available in single and double wall construction (support)

ACCORDION SHUTTERS

This form of storm protection has the ability to cover large spans such as lanais and balconies. Accordion shutters also work very well for protecting windows and sliding glass doors, and are ideal for large openings on commercial structures.

ACCORDION SHUTTER FEATURES

- Certified for installation in the High Velocity Hurricane Zone of Miami-Dade
- Secured to your home on all four sides, providing maximum protection
- Opens & closes as easily as a sliding glass door
- Protects large spans, doors and lanais
- Optional store-front locking system
- Ideal for residential and commercial structures
- Protection from hurricane winds, airborne objects and intruders

WE MAKE SMART HOMES!

At **Storm Smart**, we stay up-to-date on the latest technologies and advances.

Doing this allows us to provide smart, secure and simple capabilities that blend professional installation with customization and convenience.

Our remotes allow for easy, in-home control of your Storm Smart automatic screens and shutter with the touch of a button. You can also have the added security of controlling your screens and shutters through a home automation app, even if you aren't home! No matter where you are, any time a storm threatens, you have full control over your Storm Smart needs.

STORM PANELS

Storm panels provide strong hurricane protection for home or business.

- Florida Building Code approved (metal: FBC #FL11968; clear: FBC #FL6417)
- Available in aluminum, steel and clear Lexan®

BAHAMA SHUTTERS

Bahama shutters provide sun and rain protection, while allowing light control and curb appeal to your home.

- Certified for installation in the High Velocity Hurricane Zone of Miami-Dade
- Permanently mounted & easy to deploy
